

Management and Environmental Policy

Fort McPherson, GA

Fort McPherson and its sub-installations, Fort Gillem, and the Army Lake Allatoona Recreation Area, are committed to developing, implementing and sustaining the management and environmental programs needed to meet our stewardship responsibility to protect and conserve the environment. In accomplishing our mission, we commit to:

1. Fully integrating relevant management and environmental considerations into our mission procedures and work practices so that operations and services are efficiently and effectively performed.
2. Provide for future generations by fully integrating Sustainability into all business processes thereby minimizing resource use and preventing pollution to the maximum extent practicable.
3. Comply with relevant environmental legislation and regulations and other requirements to which Fort McPherson subscribes.
4. Assess our activities to ensure that the effectiveness of the management system is continually improved.
5. Establish Fort McPherson's quality objectives through the Strategic Planning process and through yearly planning activities.
6. Identify significant environmental impacts and ensure that they are considered when establishing objectives and targets for our programs.
7. Document, implement and maintain an efficient and effective Management System that is communicated to Fort McPherson personnel, including contractors working for the Garrison.
